“VAPE” is a documentary and campaign about the use of E-cigarettes **especially in the youth community** to understand the spectrum of health issues and dangers associated with these products. Because the number of youth users is rising dramatically, the program will help explain the product and its various uses including for nicotine and cannabis consumption.

The program is underwritten by: The City of Albuquerque Department of Family and Community Services in association with SafeTeen New Mexico, New Mexico Department of Health / Family Health Bureau and Tobacco Use Prevention and Control Program, State Farm Insurance, New Mexico Heart Institute Foundation, University of New Mexico / Campus Office of Substance Abuse & Prevention, Cooperative Educational Services, New Mexico School Boards Association, New Mexico Public Education Department and the New Mexico Pediatric Society. It has been created by Emmy © Award winning producer/director Chris Schueler of Christopher Productions, LLC.
